Description

2025 Surron Hyper Bee

Discover the ultimate blend of power, agility, and innovation with the all new 2025 Surron Hyper Bee. Designed for off-road enthusiasts, it boasts a powerful motor, exceptional suspension, and improved battery efficiency, offering an exhilarating ride on challenging terrains. With sleek design and enhanced features, the Hyper Bee redefines electric off-roading.

Key Features of the 2025 Surron Hyper Bee

Powerful Performance: Equipped with a 5 kW PMSM motor and a 50.4 V / 25 AH lithium-ion battery pack, the Hyper Bee delivers a jaw-dropping 117 ft-lbs of torque to the wheel, propelling you to a top speed of 34 mph.

Compact & Lightweight: Weighing just 85.9 lbs with a forged aluminum alloy frame, this bike offers unmatched maneuverability without sacrificing durability.
Adjustable Suspension: Tackle any terrain with confidence thanks to the 1.4-inch inverted dual shoulder front suspension (adjustable rebound and compression damping) and a 9-inch single rear shock with airbag-type adjustability.
Off-Road Ready Tires: Choose between 14/12 or 12/10 wheel configurations—featuring 60/100-14 front and 70/100-12 rear off-road tires (or 12/10 equivalents)—designed for superior grip and control.
Smart Riding Modes: Switch between 3 power modes plus reverse (R), and fine-tune your ride with a three-stage adjustable throttle curve and sliding energy recovery with three levels of customization.
Fast Charging: Recharge from 20% to 80% in just 2.5 hours with the portable, fully sealed magnetic charger—perfect for keeping you on the move.
Specifications That Stand Out
Dimensions: 59.06 in x 29.77 in x 34.84 in
Seat Height: Adjustable from 26 in to 27.8 in
Ground Clearance: 9.4 in – 10.2 in (adjustable)
Wheelbase: 40.7 in
Carrying Capacity: 143.3 lbs
